Subject: Project Management Reassignments - ESS4

Scott,

Personal Matters/Ex. 6

Charles is the manager of several task orders (TOs), including active TOs 5 (Nelson), 35 (Upper Animas), 59 (Sand Creek), 66 (Anaconda Aluminum), and 67 (DFT Uranium Mines). We have developed a plan to manage and accomplish these projects in Charles' absence. Lindsay is going to take over management of most of Charles' TOs, with support from other Toeroek staff, mainly Darren and me. Attached is a table that lists what we understand to be the status of the TOs, and the Toeroek Manager assigned to each TO. Task Order 59 (Sand Creek) is the only TO for which we have not yet designated a Toeroek manager. We will assign someone to this TO in the very near future (this week).

We will do our best to make sure that all deliverables under Charles' projects are delivered on time. I believe that we have a fairly clear understanding of deliverables and schedules; however, we will be contacting specific EPA managers to confirm and clarify project expectations and deliverables. Thank you for your understanding as we sort through all of this.

Kevin
